## SUMMARY

Recent Computer Science graduate with a strong foundation in front-end development, including experience with HTML, CSS, JavaScript, and React. Passionate about creating responsive, user-friendly web applications. Seeking an entry-level front-end developer position where I can apply my technical skills and continue to learn and grow in a collaborative environment.

## PERSONAL PROJECTS

### Aqarstock - Real Estate

2024 - Present

Aqarstock is a real estate web application designed to help users search for and compare properties based on various criteria such as location, price, and amenities. The app allows users to view property details, explore neighborhood features, and save their favorite properties for future reference.

- Technologies Used:** Next.js, Tailwind, JS/TS, RTK, Mapbox
- Dynamic Property Search:** Implemented a dynamic search functionality allowing users to filter properties based on location, price, and other features.
  - Responsive Design:** Developed a responsive user interface ensuring optimal performance across devices, including desktops, tablets, and smartphones.
  - Interactive Map:** Integrated Mapbox API to allow users to view property locations and explore neighborhood amenities.
  - Comparison Tool:** Built a comparison feature enabling users to compare multiple properties side by side, highlighting key differences.
  - Achievements:** Successfully integrated complex data from multiple APIs, providing real-time property information.

### E-Commerce

2023

An eCommerce web application designed to facilitate online shopping with a focus on a seamless user experience. The app includes features like product browsing, a shopping cart, user authentication, and secure checkout processes.

**Technologies Used:** React.js, CSS, RTK

- Product Catalog:** Developed a dynamic product catalog with filtering and sorting options, allowing users to easily find products based on categories, price, and ratings.
- Shopping Cart & Checkout:** Implemented a fully functional shopping cart and checkout system, including integration with Stripe API for secure payments.
- User Authentication:** Built user registration and login features, enabling users to create accounts, log in securely, and manage their profiles.
- Responsive Design:** Ensured a mobile-first design approach, providing an optimized shopping experience across all devices.
- Search Functionality:** Implemented an advanced search feature enabling users to quickly find products by keywords, categories, and specific attributes, enhancing the overall user experience.

## INDUSTRY SKILLS

TypeScript

React

Next

GraphQL

Bootstrap/Tailwind

Redux/RTK

## STRENGTHS

### Eager to learn new skills

As a person who is starting out, I am constantly seeking for new ways to grow and expand my skill set.

### Not afraid of failure

Strong believer in the mantra that we learn from our mistakes.

### Time management

I always set aside time to plan my week and distribute the workload by days so that I can simultaneously meet deadlines and maintain my well-being.

## EDUCATION

### Bachelor of Computer Science

Damanhour University

2020 - 2024
